

# Cisco Packet Tracer

## Setup Instructions for Windows

**1701 Computer Networks Lab**

**Lecturer: Pantelis I. Kaplanoglou**

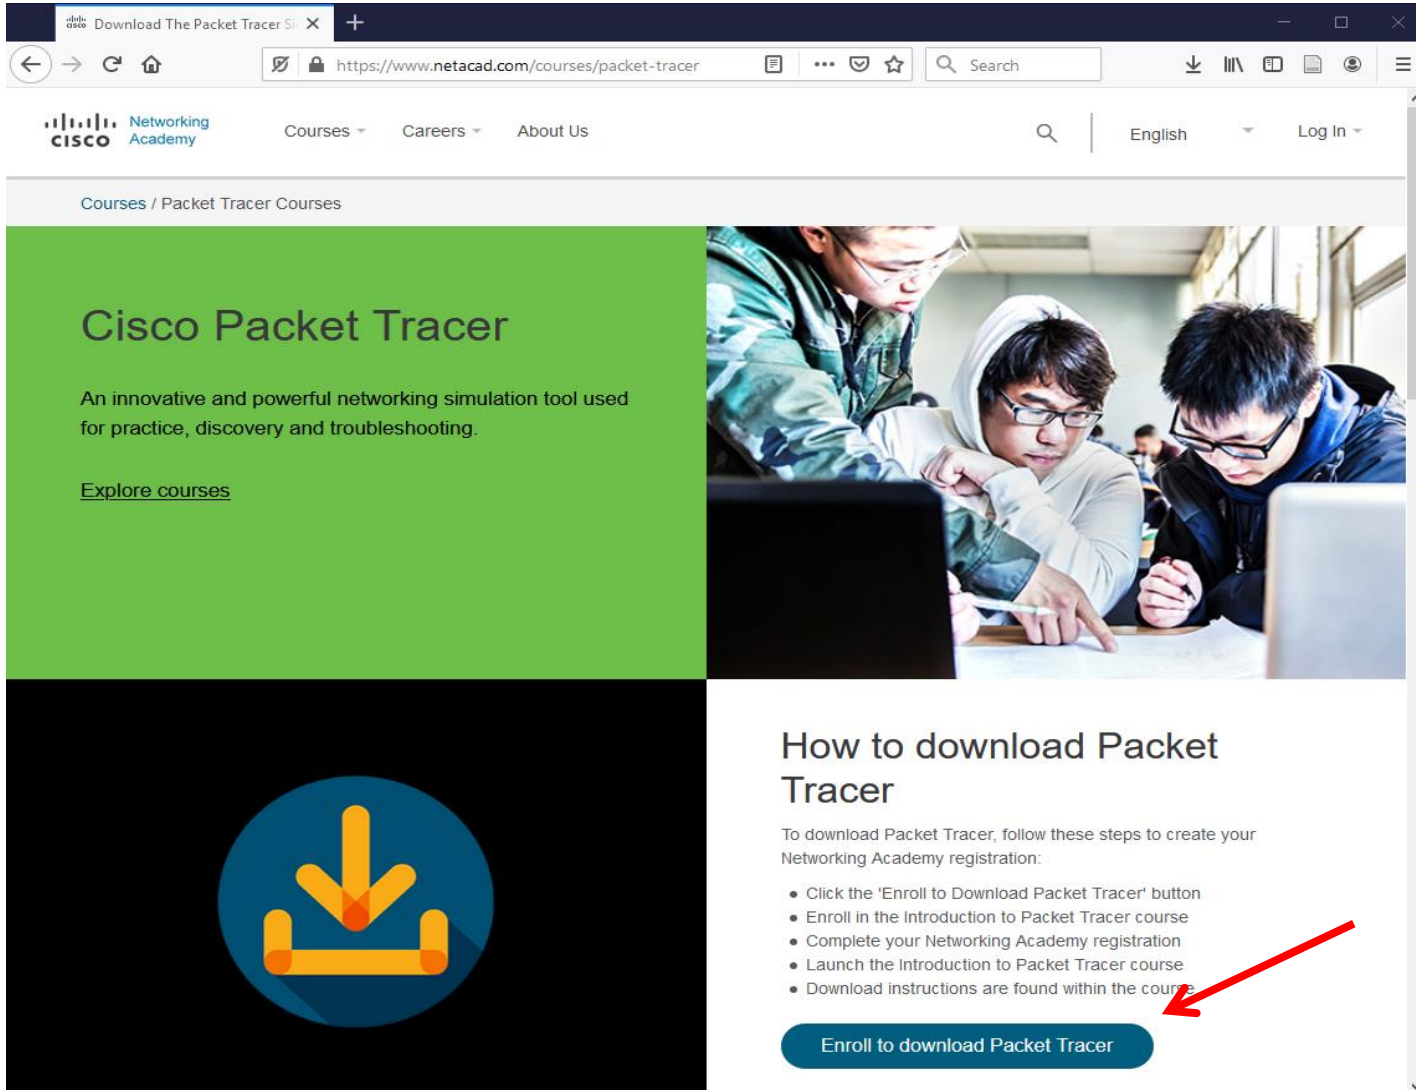

Department of Information and Electronic Engineering

**International Hellenic University**

# Step 1: Enroll and download

## <https://www.netacad.com/courses/packet-tracer>

The screenshot shows the Cisco Networking Academy website for the Packet Tracer course. The page has a green header with the Cisco logo and navigation links. The main content area is divided into two columns. The left column has a green background with the text 'Cisco Packet Tracer' and a description: 'An innovative and powerful networking simulation tool used for practice, discovery and troubleshooting.' Below this is a link 'Explore courses'. The right column features a photo of three students working on laptops. Below the photo is the section 'How to download Packet Tracer' with a list of steps: 'Click the 'Enroll to Download Packet Tracer' button', 'Enroll in the Introduction to Packet Tracer course', 'Complete your Networking Academy registration', 'Launch the Introduction to Packet Tracer course', and 'Download instructions are found within the course'. A red arrow points to the 'Enroll to download Packet Tracer' button at the bottom of the right column.

# Step 2: Begin the installation

- Click **Next** as many times as needed.

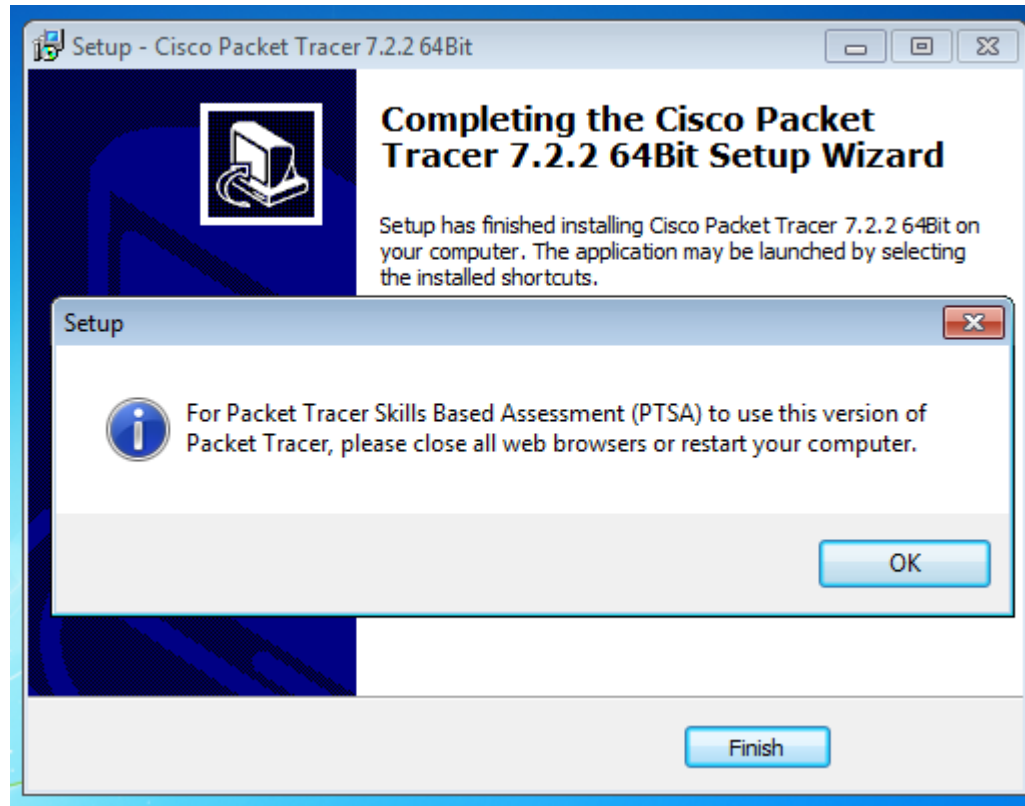

# Step 3: Start copying files

- Click **Install** to start the installation process.

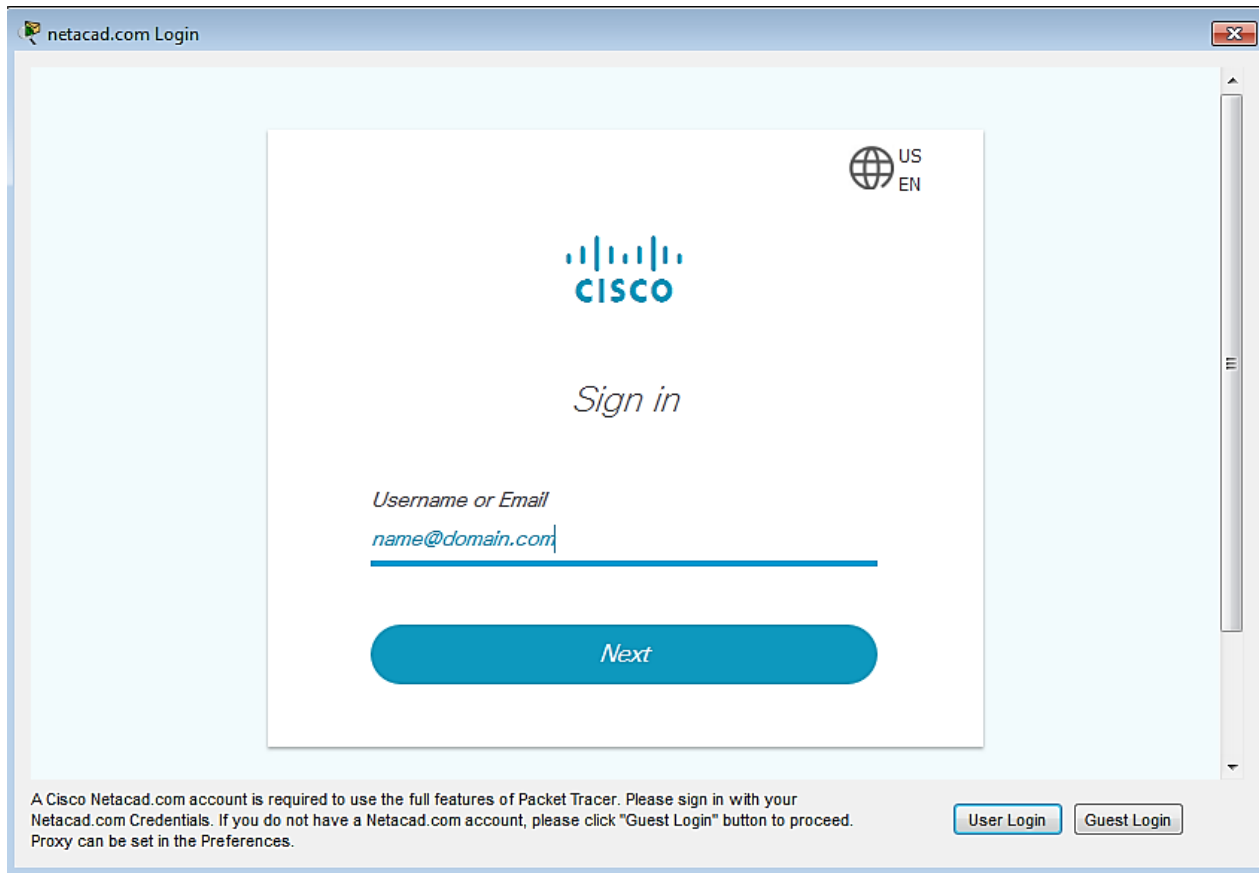

# Step 4: Finalize the installation

- Click **OK** and then **Finish**.
- Launch the application.

# Step 5: Login/Identification

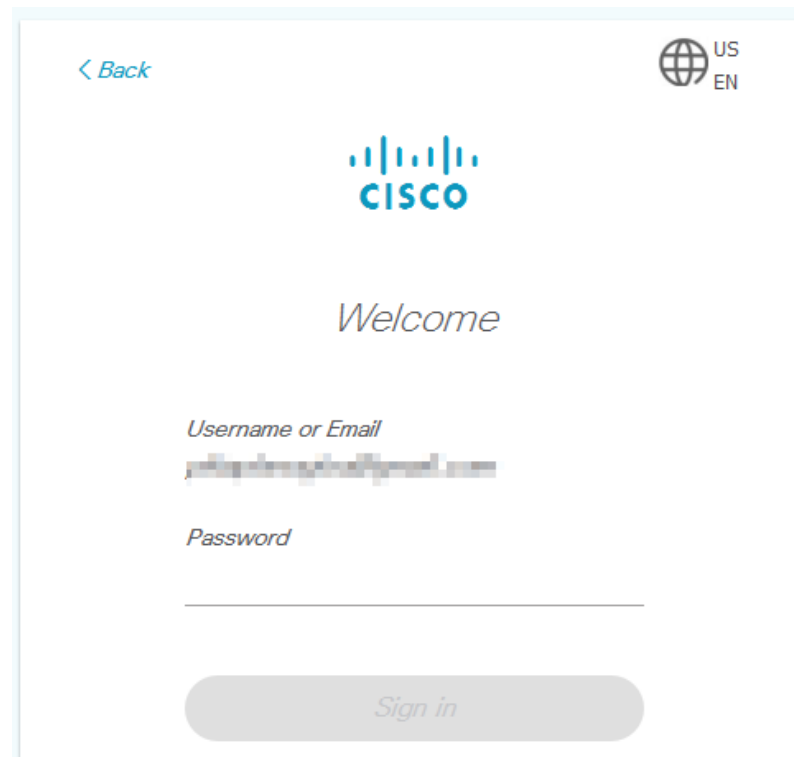

- Enter the username that you have registered with and press **Next**.

The screenshot shows a web browser window titled "netacad.com Login". The main content area has a light blue background. In the center, there is a white box containing the Cisco logo (a stylized bridge) and the word "CISCO" in blue. Below the logo, the text "Sign in" is displayed in a grey, italicized font. Underneath, the label "Username or Email" is followed by a text input field containing the placeholder text "name@domain.com". A blue underline is visible under the input field. Below the input field is a large, rounded blue button with the word "Next" in white. In the top right corner of the white box, there is a globe icon with "US" and "EN" next to it. At the bottom of the browser window, there is a grey footer area. On the left, it contains the text: "A Cisco Netacad.com account is required to use the full features of Packet Tracer. Please sign in with your Netacad.com Credentials. If you do not have a Netacad.com account, please click 'Guest Login' button to proceed. Proxy can be set in the Preferences." On the right, there are two buttons: "User Login" (highlighted with a blue border) and "Guest Login" (a standard grey button).

# Step 5: Login/Authentication

- Enter the corresponding password to enable and then press **Sign In**.
- You will then see the application's workspace.

A screenshot of the Cisco login interface. At the top left is a '< Back' link. At the top right is a globe icon with 'US' and 'EN' language options. The Cisco logo is centered. Below it is the word 'Welcome'. There are two input fields: 'Username or Email' containing a blurred email address and 'Password' which is empty. A grey 'Sign in' button is at the bottom.
